Totals		-595.5		-86.2	-23.5	-130.3	-50.9	

First Tier: Forest management credited up to 100% up to the level of Art. 3.3 debit, with a cap of 30 Mt CO₂ (8.17 MtC) times five, if total managed forest since 1990 compensates for this debit.

Second Tier: Forest management beyond first tier: apply 85% discount.

Third Tier: Agricultural management (cropland management, grazing land management, and revegetation): apply "net-net" accounting compared to the base year level (ie, carbon stock changes in the commitment period minus five times the carbon stock changes in the base year).
